ORDESA

ORDESA

ORDESA is a natural inspiration material. We have created it to perfectly simulate stone, both to the eye and touch. Therefore, there is a wide variety of pieces with different faces, with a high relief and slightly different calibers, just as in the natural material

Bestile offers a focus on this new series, 8 different colours, all awaiting your discovery! For instant stone-effect and personality, nothing beats Ordesa. From light tones to dark colours, mixed to elegant neutrals, we've got a design to suit every style – and, very space too.

How to install ORDESA

In order to reproduce the same effect as natural stone, Azulindus strongly recommends the HALF-BONDED tile installation, either a with or without a joint. This is the only way to achieve the natural effect we are looking for.
